NATIONAL COUNCIL OF
TEACHERS OF MATHEMATICS

The National Council of Teachers of Mathematics (NCTM) is a public voice of mathematics education, providing vision, leadership, and professional development to support teachers in ensuring mathematics learning of the highest quality for all students. NCTM is the world's largest organization dedicated to improving mathematics education in pre-kindergarten through grade 12. The Council's award winning publication, *Curriculum Focal Points*, builds on its *Principles and Standards for School Mathematics*, both striving towards a more coherent, focused mathematics curriculum. NCTM is dedicated to ongoing dialogue and constructive discussion with all stakeholders about what is best for our nation's students.

Members of NCTM are PreK-12 teachers, supervisors, student teachers, teach educators, professors of two-year colleges, four-year colleges and universities, curriculum developers, superintendents, as well as schools and libraries. These professionals stay connected and informed through NCTM's journals - *Teaching Children Mathematics*, *Mathematics Teaching in the Middle School*, *Mathematics Teacher*, and *Journal for Research in Mathematics Education* – as well as, through various conferences and online offerings. Members who have opted out from receiving mail from NCTM have been removed from the mailing lists.

Average Unit of Sale: \$75/year (Membership)
